

OPNOT

All Aerodrome Users

Wolverhampton
Halfpenny Green Airport

Number 2019 – 07

23/07/2019

AIRCRAFT PARKING AREAS – MOVEMENT OF VISITORS

1. Introduction

This OPNOT is to advise people in a change to the regulations governing Apron Safety as defined in Section 4.12.3 Apron Safety of the Aerodrome Manual. The following instruction becomes active with immediate effect and remains in force until the next Aerodrome Manual update is issued.

2. Instruction

Aircraft operators are responsible for ensuring that only the crew and passengers of aircraft enter areas where aircraft are parked or may be about to start / taxi. Visitors attending the airfield to watch the flights are only to do so from the designated viewing area(s) at the base of the tower. Under no circumstances are children to be left unsupervised in any of these areas. Please note operators remain responsible for their visitors from point of arrival, when moving to and from the viewing area(s) and until they have left airside. They should provide suitable supervision to ensure this is managed accordingly.

3. Queries

Queries or requests for further guidance should be addressed to Brian Rawlings directly.

4. Cancellations/Variations

This OPNOT remains in force as detailed above.
